GSEF2018 in brief

The Global Social Economy Forum – GSEF 2018 is the fourth edition of this forum, that was initiated by the City of Seoul in 2013, in collaboration with its local social economy partners. The 2014 edition, held once again in the South Korean capital, culminated in the founding of the GSEF as a permanent international association uniting local governments and civil society stakeholders that recognize the Social Economy as a key factor in local economic development.

In 2015 Bilbao became part of the GSEF network

The third edition was celebrated in 2016 in the city of Montreal, where it was announced that Bilbao would host GSEF 2018

In February 2017 the Local Organizing Committee was created, which under the Councillorship of Economic Development, Commerce and Employment and alongside GSEF, has been the organ designing GSEF 2018. This Committee has been formed by Public Institutions and the representative entities of Social Economy.

The Local Organizing Committee of **GSEF2018** is constituted by **public administrations and the agents of Social and Solidary Economy**

- 
- **EHLABE Labor inclusion for people with disabilities**

PRESENTATION

"SustainLIFEbility: tricks and remedies for an entrepreneurship with life in the centre" is a whole project aimed to move towards a more inclusive and sustainable entrepreneurship. Its main goal is to advance in the balance between an entrepreneur's LIFE and the SUSTAINABILITY of her/his project, that allows self-employment to be a "worth living" life or at least, that does not worsen it.

And how do we do it? Through the collective work of professionals who want to undertake their projects without neglecting their lives. With a series of methodological cards for each person or team to diagnose themselves in a unique and exclusive way and design a customised sustainLIFEbility plan.

MEDIA COVERAGE

The IV Edition of the Global Social Economy Forum GSEF2018 has had great repercussion in the media, fundamentally on written press, radio, television, the internet y social networks. On this note, local news outlets have broadly covered the event, thence increasing its diffusion.

Equally, the entities which conformed the Local Organizing Committee, as well as other organizations that have somehow participated in the forum, have spread GSEF2018 through its corporate websites. Since many of them were international organizations (RIPESS, Social Economy Europe, European Union, UCLG, REVES, etc.), the international projection of the forum was further intensified.
